

MOTOR VEHICLE TRAFFIC CRASHES
2018 DRIVER ERROR TABLES
Count of Drivers by Primary Error in Crashes where a Pedestrian was Killed or Seriously Injured

NOTES: As of 2016, Participant Error and Age are no longer collected for PDO crashes. PDO drivers are grouped in the "Not Stated" column, "With No Error" row. Up to three errors per driver are coded for a given crash. However, only the first, most relevant error per driver is represented on this report, to avoid counting the same driver multiple times. This results in under-reporting of total errors. For total errors by age group, please request a CDS300 report.
